LETTERS OF APPLICATION AND RECOMMENDATION
DURING THE ADMINISTRATION OF
JAMES MONROE, 1817-1825

The Department of State file of Letters of Application and Recommendation for appointment to Federal Office (1791-1901) is arranged in units that correspond approximately with Presidential administrations. The 19 rolls of this microfilm publication reproduce the letters of this series for the administration of President James Monroe. The material is in alphabetical order under the surname of the applicant or the person recommended.

The requests for employment came from every section of the country and included every type of Federal office. The recommendations were sent in by personal friends of the President, by political supporters, Members of Congress, and officials of the executive branch of the Government.

The foreign trade of the United States had been discouraged by the embargo policies of President Jefferson and the War of 1812. The economic growth of the European cities after the Napoleonic Era and the wave of revolutionary activity in Central America and South America stimulated the foreign trade of the United States after 1815. The effect of this trade expansion is reflected in the increased number of applications and recommendations as importing firms sought official status for their business representatives in the new markets. Consular posts multiplied, and there were many applicants for these positions.

Friends of the administration expected a change of officeholders when the new President took office. The new territories of Alabama, Arkansas, and Florida, all coming into existence during the Monroe administration, also created new Federal offices to be filled. The growth in population and political influence of the Western States and Territories is reflected in the increased number of recommendations from those areas.

Separate organizational units did not exist in the Department of State until 1834 when the Home Bureau was created; at that time the Letters of Application and Recommendation were placed in that office. Subsequently, the series was in the charge of the Clerk of Appointments and Commissions, 1846-70, and successively in the keeping of the Bureau of Pardons and Commissions, 1870-95, the Appointment Clerk, 1895-98, the Bureau of Appointments, 1898-1924, and the Appointment Section of the Chief Clerk's Office from 1924 until January 11, 1939, when the records were transferred to the National Archives.

The records are part of Record Group 59, General Records of the Department of State, which contains other documents that relate to appointments to Federal office. They include oaths of office, attested copies of confirmations and rejections by the Senate, copies of commissions, resignations, and declinations of appointments.

Additional records in the National Archives relating to appointments during the Monroe administration are in Record Group 107, Records of the Office of the Secretary of War; Record Group 94, Records of The Adjutant General's Office; Record Group 28, Records of the Post Office Department; and Record Group 60, General Records of the Department of Justice.

LIST OF APPLICANTS OR PERSONS RECOMMENDED

Each entry gives the name of the applicant, appropriate cross-references to other applicants, the date span of documents and their enclosures, and the number of documents that contain a reference to the applicant or applicants. The term "document" as used in this microcopy may be either an individual letter with no enclosures or a letter of transmittal with its enclosures.

The list contains only the names of applicants for positions and of officeholders. It does not list the many important individuals whose letters of endorsement and comment are present in the file.

Examples and explanations of the cross-references used in this microfilm publication are as follows:

1. Adams, William G. See Adams, Francis, Jr.

Signifies that all material referring to William G. Adams will be found under the name of Francis Adams, Jr.

2. Allen, William O. . . . See also Selden, Joseph

Signifies that in addition to the material filed under the name of William O. Allen there are references to him included under the name of Joseph Selden.
